

# Beveridge Primary School Communication Procedures Policy

## Rationale

Beveridge Primary School recognises that clear communication underpins strong home – school partnerships. The school aims to develop clear, two-way communication that fosters a strong community network and supports student learning. This policy provides information to parents in order to:

- Outline the ways in which information will be communicated by the school to the community; and
- Suggest the most suitable avenues for parents/guardians to communicate with the school.

## Implementation

### Guidelines

- At the beginning of every school year, parents new to Beveridge Primary School will be made aware of the Communication Procedure.
- The Communication Procedure will be available on the school website. Relevant policies will also be uploaded on to the School website in accordance with the DET guidelines.
- The School Policies describe the rationale, aims and implementations of the operations and directions of the school as a whole.
- All policies will use the school policy layout, meet legislative and compliance requirements, and have a designated review period.
- When developing a new policy, the Principal will consult with appropriate personnel in order to draft the initial policy statement. The draft policy may be circulated for comment to the appropriate committee/s, to staff members, to parents, to students before ratification by School Council if required.
- Policies will be developed taking into account DET policies, memos and circulars relating to a particular policy area.
- A database of policies and a review schedule to provide a timeline for reviews is to be maintained by the School administration.
- Beveridge Primary School aligns all policies and actions with Government guidelines. We use the School Policy and Advisory Guide as a quick and easy reference to governance and operational policies and advice. It complements the Department's extensive web resources and directs users to relevant websites and supplementary information.
